Experience

DigitalCrafts | Full-Stack Web Developer   September 2017 – January 2018

Atlanta, GA
- 16-week intensive, full-time accelerated learning program
- Learned Python and full-stack JavaScript, including Node.js, MySQL, Express, React/Redux, HTML/CSS, and Amazon Web Services
- Participated in "Hack Big for Small Business" hackathon sponsored by Visa, US Bank, and Elavon Payments on 12/2/17.
- Recent projects include:

MeterMiser | https://github.com/YankeeSoccerNut/MeterMiser

- Demonstrates ability to connect to wi-fi enabled thermostats and provide heating/cooling statistics
- Built with HTML, CSS, Node.js, Express, and MySQL
- Features ability to text alerts and acknowledge responses via an SMS interface using Twilio API

BetterCashFlow | https://github.com/YankeeSoccerNut/BetterCashFlow

- My final bootcamp project that is due 1/10/18. It was started at the "Hack Big for Small Business".   The application lets Small Business Owners model cash flow so they can avoid a cash crunch.
- Built with React/Redux, Node.js, Express, and MySQL
- Demonstrates integration with USBANK and Visa APIs along with ability to manage state across React components with Redux

Blackjack | https://github.com/YankeeSoccerNut/blackjack

- The classic card game Blackjack (aka 21), featuring betting and ability for the player to hit, stand, double down, and buy insurance
- Built with HTML, CSS, JavaScript, and jQuery

spaceEvader | https://github.com/YankeeSoccerNut/spaceEvader

- An entertaining "tag" game between Yoda and Darth Vader built using Python and pygame.
- The game implements mult-channel sound effects, a clock that cycles between good and evil, and a randomly appearing light saber that turns Vader from the hunter to the hunted.

Oracle Corporation | Various Roles   October 2000 – July 2016

Atlanta, GA
- Promoted to progressively challenging roles from individual contributor to Senior Director. My most recent role focused transitioning customers from on premise, licensed software to Oracle's public cloud subscription-based offerings.

Other Relevant Experience: Before October 2000
- Extensive hands-on developer experience in financial services and utility industries. Heavy relational DB, C, and some assembly.

Education

Georgia State University| MBA   Fall 2004 – Winter 2006

Atlanta, GA
   General Management

University of Massachusetts (Lowell) | BSBA   Fall 1986 – Spring 1989

Lowell, MA
   Management Information Systems
   Math Minor
